**DECLARATION UNDER 37 C.F.R. 1.132**

Assistant Commissioner of Patents  
Washington, D.C. 20231

Dear Sir:

**Declaration of Kia Silverbrook**

1. With respect to the Amendments dated May 24, 2002 of the above-referenced application (the "present application"), the amendatory material sought to be included by the amendment to the paragraph starting on page 4, line 25 of the present application, by the inclusion of a reference to U.S. Patent Application No. 09/436,508, consists of the same material incorporated by the reference (the "original reference") in the said paragraph immediately prior to this amendment. No new matter is presented.
2. The statement made in clause 1 above is made notwithstanding the fact that the title of the application referred to in the original reference differs from that of Application No. 09/436,508. The reason for the title reflected by the original reference was because of the expectation, when the original reference was made in the specification forming part of the present application, that the title of Application No. 09/436,508 would be as reflected in the original reference, even though the title of Application No. 09/436,508 as filed differed from that in accordance with said expectation.
3. I declare, under penalty of the perjury laws of the United States, that all statements made herein of my own knowledge are true and that all statements made based on information and belief are believed to be true, and further that these statements were made with the knowledge that wilful false statements and the like so made are punishable by fine or imprisonment, or both, under § 1001 of Title 18 of the United States Code, and that such wilful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this verified statement is directed.

Respectfully submitted,

Signature: 

By: Kia Silverbrook
